Help in every state: 1-800-923-6784 • LifetimeAdoption.com

Modern Adoption

Call from the counseling room!
24 Hours: 1-800-923-6784

Modern Adoption means meeting your client where she is, at her comfort level, at her pace. This is why Lifetime Adoption's support model is different than other adoption agencies—we're there for today's client on her terms.

We are available ANYTIME, anywhere, through:

- 24 Hour Adoption Hotline, staffed by caring professionals.
- Texting, email, and even social media messaging!
- Traditional mail or fax.
- Open Adoption App for mobile devices.
- Free adoption book download.

We provide:

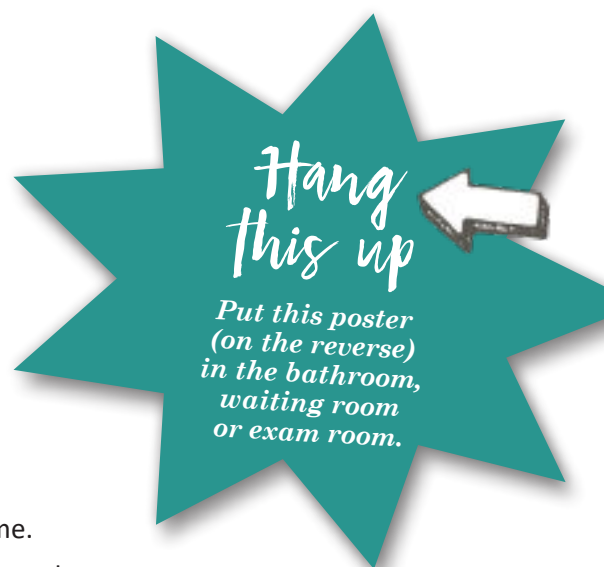

- Help for women in every state, even right from the hospital if needed.
- Access to qualified families who welcome an open adoption.
- Adoption planning, the way she wants it to go.
- Private, confidential services, including counseling from the comfort of her home.
- Free adoption services and help with your client's living expenses, as legally allowed.

The old model of meeting in person with an adoption counselor can't meet your client's needs. Today, she can look up answers online, without telling anyone she's thinking about adoption. Make sure she knows the right places to get the resources YOU would want her to find by pointing her to the modern adoption tools you trust.

With Modern Adoption, a woman can decide how her plan will go, and ALSO decide how *she* wants to learn more! There are still many stereotypes that make women believe "bad moms choose adoption," which means she won't risk being judged by telling you adoption is on her mind; **never assume she's not thinking about adoption just because she doesn't talk about it.**

The TRUTH is that loving mothers choose adoption. With access to compassionate, accurate adoption resources, she can learn from the privacy of her mobile device, 24/7. Help her make an informed decision by sharing Modern Adoption.

Lifetime Adoption is a leader in modern adoption, proudly equipping proactive pregnancy centers to meet client needs.

The help she needs, the way she wants it.

- FREE online Adoption Training for your center.
Learn how to easily and effectively educate clients about adoption.
