What is the Lifetime Adoption Foundation?

The Lifetime Adoption Foundation is dedicated to creating healthy and fulfilling futures, for a child and his birth mother. We provide support in a variety of ways, often unique to each woman’s personal needs during her adoption planning, as well as helping her to consider a plan for life-after-adoption that she will be proud, and encouraged, to pursue.

When a mother places a child for adoption, she does so out of a great love and sincere desire to give her child his best chance. Many birth mothers also express a desire to improve their own circumstances, further educational goals, or to create a more stable home life for herself, or a child she may already be raising. **The Lifetime Adoption Foundation will help you with your need for compassionate support during the process, and to find the tools you need to thrive, and be free to dream, beyond your child’s adoption.**

ADOPTION SUPPORT, FOR A LIFETIME

How can we be there for you?

Lifetime’s network of care and compassion will be there for you as you decide what you want to do, to assist with and support your wishes during the adoption process, and to advocate for you after your child’s adoption takes place.
